Dear students,

as per what we agreed, you can start to develop your project work for the final oral exam.

Just to be clear, I would like to remind you the correct flow:

1. You enroll on the written exam session on [uniweb.unipd.it](https://uniweb.unipd.it) site (**you already did it**)
2. You take the written exam (**you already did it**)
3. You receive the project work (**done, today**)
4. You produce the discussion document. Do your exam in team.
5. You enroll on the oral exam session on [uniweb.unipd.it](https://uniweb.unipd.it) site (**it's required you do it**). This is the exam registering date and not the date where we are going to discuss it. I don't remember the first useful date, for you. Please, ask to the University to be well informed on your last exam date session. Even if we can agree on a different date, you must register for the correct exam session on the uniweb website as the exam will be recorded as from the date taken on uniweb.
6. You prepare few powerpoint slides to help you during the document explanation (**I hope you will do**)
7. We take an agreement on the exam date. You should take it on presence. (**still to DO**)
